

From Bits to Data, from Pipes to Clouds

The network as an asset for convergence of Telecoms, IT and Media into an Internet of Knowledge

4-7 October 2011, Berlin, Germany

Knowledge management in cloud environments

Dirk Langenberg

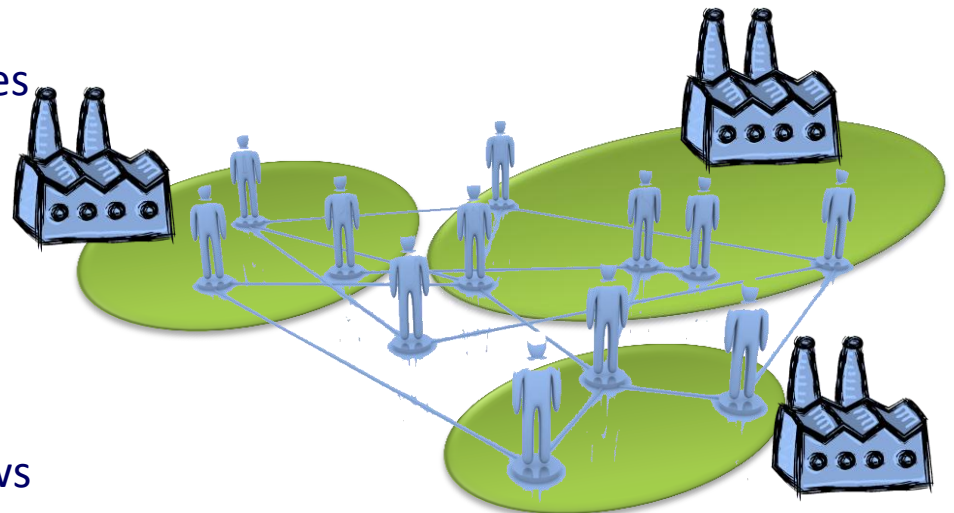

Pumacy Technologies AG

Motivation

Knowledge is not yet shared in Virtual Organizations because of ...

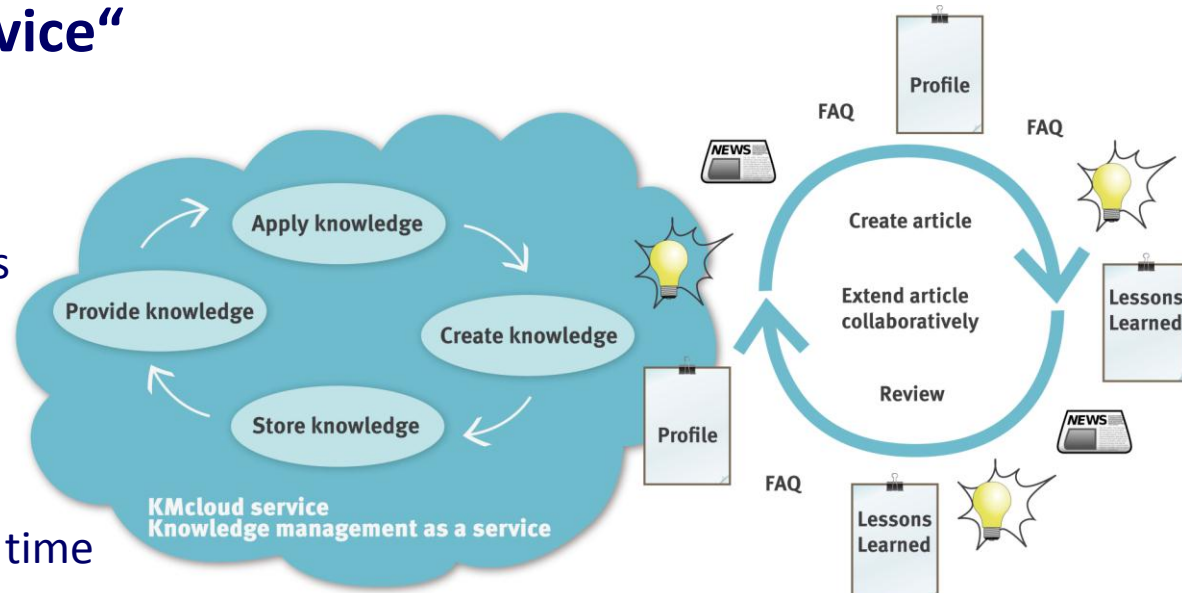

- globally distributed teams
- affiliation to different companies
- manifold IT infrastructures
- security reasons hinder information and knowledge exchange
- time restricted projects
- missing formal information flows

But exchange of knowledge is necessary!

Solution: „Knowledge Management as a Service“

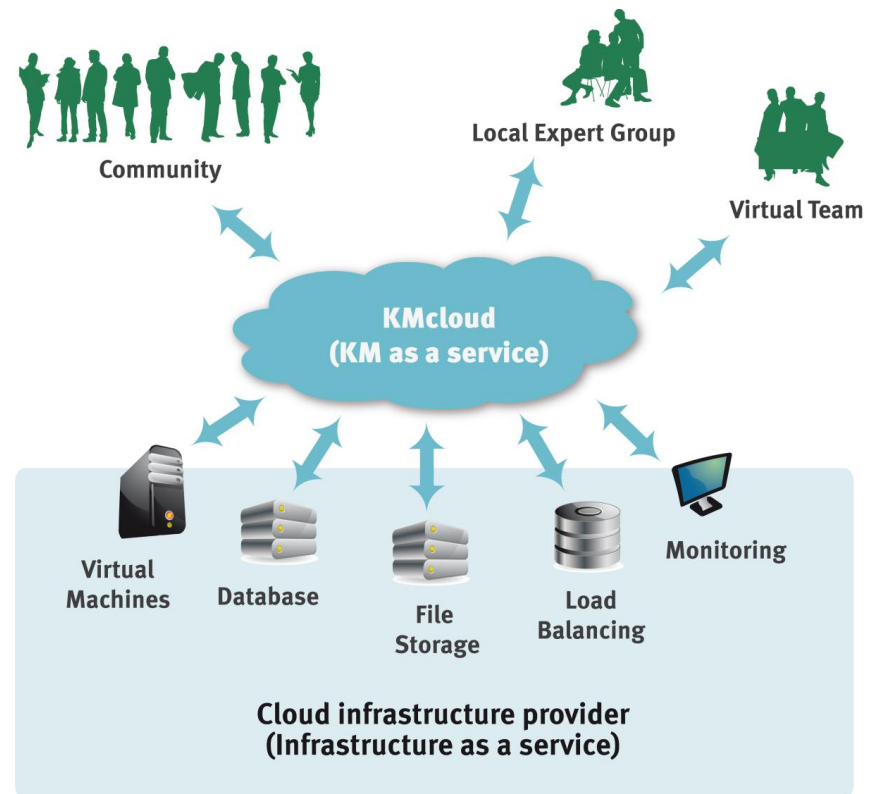

- Project based knowledge management platform
- Providing of functionalities for the entire knowledge management process
- Flexible and scalable
- Available solution in short time
- Usable from the whole world
- Pay-per-use
- Usage of flexible cloud resources

Project KnowledgeCloud

- Pumacy realizes the knowledge management service on basis of cloud IT infrastructures
- Software providers change to full service providers
- Initial service KMcloud was recently launched

→ Further information about KMcloud in the poster session or at <https://www.kmcloud.de>
